First Conditions for Peace
Which Must Be Met By
Huns, Says Delbrueck.

Stockholm, Sept. 11.—As the first step toward peace Germany must renounce the pan-German ideas in the opinion of Prof. Hans Delbrueck of the University of Berlin. In an article in the magazine Prussian Year Book he declares the pan-Germans not only bear a portion of the responsibility for the war, but also the chief responsibility for its prolongation. He says:

"The world demands and has a right to demand that the German people give a guaranty that the pan-German spirit, the spirit of superiority of might of heathendom, isn't the German spirit. The best method of showing the world that the German government has definitely and irrevocably shown the pan-German endeavors the door would be for the government to collect all of those ante-bellum pan-German incitements and demonstrate by means of our enemies' literature how greatly their conduct damaged us and help to light the fires of this catastrophic war."
